

AML Convertible Rollator Transfer Chair

Code: AMLTRROL

Description

This lightweight collapsible aluminium rollator has four 8.0" castors. The front two castors swivel allowing for the rollator to be easily moved in any direction. These larger sized castors allow it to be used both indoors and outdoors.

The cable loop brakes are easy to use and when squeezed with both hands allow instant braking. They also have a locking feature which allows the brakes to be "locked on", necessary when using the wheeled walker's built-in seat.

This rollator features a transfer chair with a height adjustable footrest and padded backrest.

Features

- High strength aluminium tubing
- Ergonomic Hand Grips
- Height adjustable Footrest
- Transfer chair
- Padded seat and backrest
- Under seat storage
- Locking looped hand brakes
- Folds up for ease of transport
- Some assembly required
